-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Applicants' remarks and amendments, filed on November 16, 2009, have been carefully considered. Claim 13 has been canceled; no new claims have been added.

Claims 1-12 and 14-18 remain pending in this application.

Election/Restrictions

Applicant's election with traverse of Group I, claims 1-10 in the reply filed on November 16, 2009, is acknowledged. The traversal is on the ground(s) that the claims, as now amended (claims 11, 12, and 14-18 have been amended to depend directly or indirectly from claim 1), "all require two ejecting droplets steps". This is not found persuasive because despite the claims' dependencies, the inventions described therein continue to appear to not relate to a single general inventive concept.

For clarification purposes, a new restriction requirement is being made herein.

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- a. Group I, claim(s) 1-10 and 15-18, drawn to a method for manufacturing an electrode catalyst layer.
- b. Group II, claim(s) 11, drawn to an electrode.
- c. Group III, claim(s) 12, drawn to a battery.

2. The inventions listed as Groups I through III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

At least claim 11 is anticipated by or unpatentable over Kobayashi et al. (U. S. Patent Application Publication No. 2005/0272595) or Köhler et al. (U. S. Patent No. 6,893,761), each of which disclose electrodes comprising a base material having at least one surface, and an electrode catalyst layer overlying at least a portion of a surface of said base material. See Figure 1 and paragraphs [0027] and [0052] of Kobayashi et al., and Figure 1 and col. 4, lines 20-32 of Köhler et al.

In view of these references, claim 11 (Group II) lacks the corresponding special technical features of Groups I or III.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
